

Magazine Template

Thank you for purchasing our project. Adjusting is very simple and easy, even if you are beginner in Adobe In Design.

So let's get started.

When you open ID file you will see this window.

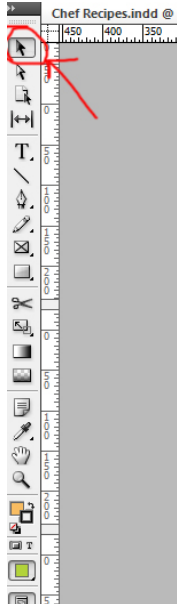

Or similar in lower versions of Adobe InDesign.

If you can see a layer many click on Windows and check Layers or click F7 on your keyboard.

Change Images

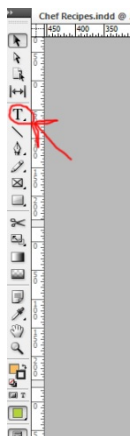

If You want to change image, first select tool named “Selection Tool”

and after that click on picture that you want to change. When you click on picture, go to menu and choose File>Place and upload your picture.

Change Text

It you want to change text choose tool named “Type Tool”

After that click on text that you want to change and type your own text

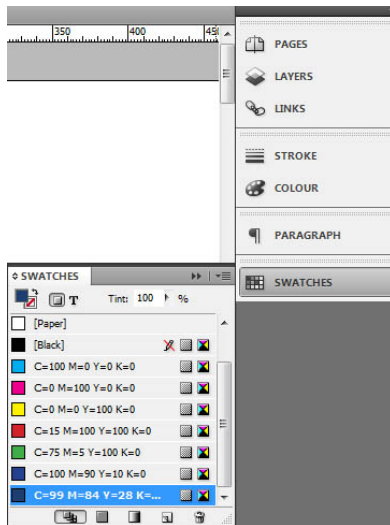

Used fonts:

Josefin Sans

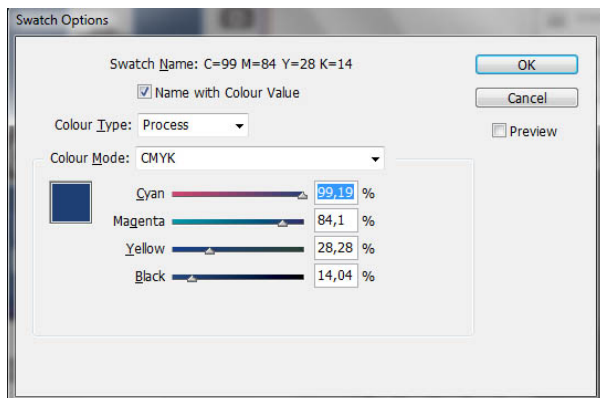

<http://www.fontsquirrel.com/fonts/josefin-sans>

Change Color of Text

If you want to change color of your text, first go to “SWATCHES”

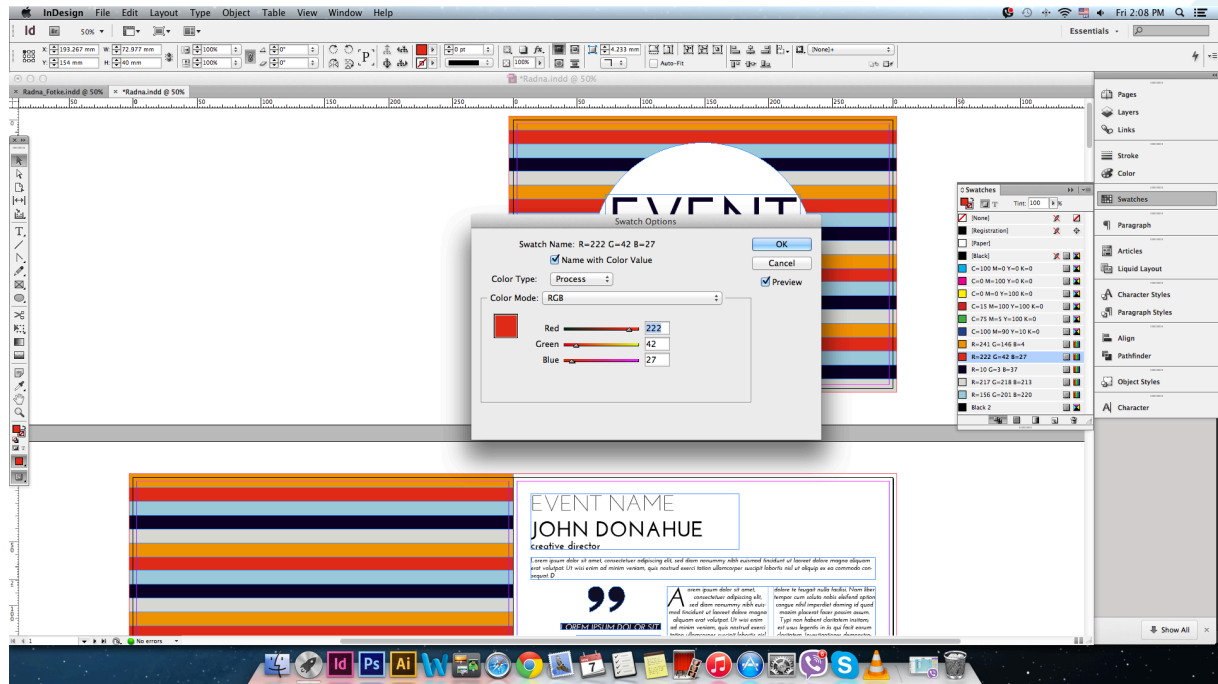

Then double click on color which is selected.

In new window choose color that you like and click OK

Change Color of Shapes

If you want to change color of your shapes go to “SWATCHES”, double click on color that you want to change and in new window use slider and choose color that you want.

After making changes, don't forget to click OK.

If you have any questions feel free to contact us.

Don't forget to rate.
